## BUFFALO HUNTING KARAMOJA & PLAINSGAME HUNTING KAFU BASIN & ASWA LOLIM - UGANDA

### **Karamoja - North East Uganda**

The north-eastern Karamoja region, bordering the Kidepo Valley National Park to the south, is a beautiful mountain and savannah landscape with good game populations, especially old buffalo bulls.

In cooperation with Uganda Wildlife Safaris, I mainly hunt in Karamoja on the border between Kidepo National Park, Kenya and southern Sudan. Here you can still experience the old Africa!

All hunts are organized with the comfort of a classic East African style tented safari and are personally guided by me. My trackers Lorinyo and George will be there alongside the excellent game scouts of the local Karamojong tribe. On the Karamoja hunts, the focus is on hunting buffalo, which are either hunted on the trail or spotted from the neighbouring, smaller mountain ranges and then stalked.

The following game species can also be hunted in the Karamoja concessions: Defassa waterbuck, Jackson's hartebeest, Eastern Bohor reedbuck, Chanler's mountain reedbuck, Gunther's dik-dik, oribi, warthog, lesser kudu, spotted hyena and leopard.

We recommend a hunting period of 7 to 14 full hunting days, depending on how much time you take and which game species you want to hunt.

### **Kafu Basin & Aswa Lolim - Central Uganda**

In addition to the Karamoja concessions, the concessions in the Kafu River Basin (central Uganda) of Uganda Wildlife Safaris (UWS) are particularly interesting for hunting sitatunga and bushbuck, as the population of these game species is enormous there. But Uganda kob, bush duiker, Bohor reedbuck, waterbuck, oribi and bushpig are also found. Sitatunga and bushbuck are mainly hunted from a high stand in an open area adjacent to the papyrus swamp.

Another UWS concession is located further north, adjacent to the Murchison Falls National Park, the Aswa Lolim Ranchlands. Here there are hunting opportunities for Nile buffalo, Uganda kob, Jackson's hartebeest and waterbuck.

I usually offer hunts in Kafu and Aswa-Lolim as follow-up hunts after a buffalo hunt in Karamoja, unless a hunter comes to Uganda especially for a sitatunga hunt.
